

# Women Speak FOR THEMSELVES

## Questions for your May WSFT Gathering

1. If you are a mother, do you feel that you were prepared to become one? If so, how and by whom? If not, why not?
2. If you would like to be a mother someday, do you feel that you are receiving preparation? If so, how and by whom? If not, why not?
3. What should we do to help young women today prepare for motherhood? What habits and practices should we encourage? Which should we help them avoid? What sources should we use?
4. Are there women in your family and community who might need help or encouragement in preparing for motherhood?
5. Do you remember the “one improvement” you talked about during your first WSFT Gathering—one thing your *wider community and town* may need for redirection on sex, marriage, and kids? How is that project going? Do you need support from us?
